## PERSONAL STATEMENT

I'm Telecommunication Engineer from Blora (Indonesia). I love everything that has to do with Telecommunication and Technology.

I like learning something new, with carefully, quickly and develop it. solve problems quickly and correctly even in high pressure. able to work individually or team.

I have experience more than 4 years working on Telecommunication. I love working with team, specially if they have same passion and I have for what they do.

## WORK EXPERIENCE

Oct 2018 - Present  
Makassar Area  
XL HS

### PT. China Comservice Indonesia | RNO Engineer

- Collect alarm and statistic and monitoring cells performance.
- Amazon task force kill low Rank2, RTWP, VSWR and other interference.
- Optimization low throughput in urban area
- Checking utilization transport IPASSO and give reason to re-route / upgrade
- Audit neighbour relation.
- Fix overshooting and pilot pollution impact KPI.
- Maintain KPI performance (DCR, PS access, CS access, etc).
- Improvement throughput optimization in iconic and SCR route.
- VIP complaint optimization.
- Check discrepancy parameter.
- Daily network performance monitoring, identify network performance degradation (accessibility, retain ability and integrity) and give recommendation to solve it.
- Analyze and Optimize KPI degradation.
- Low Throughput analysis.
- Analyse KPI statistic and change parameter setting or physical to improve network performance.
- Make weekly report for network improvement.

Jul 2016 - Sep 2018  
Bandung Area  
H3I

### PT. NexWave Indonesia | RF Optimization

- Improvement LTC optimization (Low Throughput Cell).
- Cluster optimization and monitoring using LMT and Huawei U2000.
- Update user performance for 2G 3G 4G.
- Audit neighbour relation.
- Campus optimization to improve coverage, quality & user experience.
- Fix overshooting and pilot pollution impact SCR KPI.
- SCR cluster keep KPI in good performance (DCR, SHO PS and CS,etc).
- Improving and Manage KPI performance of RNC.
- Analyse KPI statistic and change parameter setting or physical to improve network performance.

Dec 2015 - Jun 2016  
Bandung Area  
H3I and ISAT
